

Hot Dip Galvanized Generator Trailer with 1500kg ATM and LED ADR Lights for Outdoor Power Transport

Our Product Introduction

for more products please visit us on tippers-trailers.com

Basic Information

- Place of Origin: China
- Certification: 9001/TS 16949, CCC, CE, ADR, DOT
- Minimum Order Quantity: 1
- Delivery Time: 20-30work days
- Payment Terms: L/C,D/A,T/T,D/P
- Supply Ability: Annual output :2000

Product Specification

- Product Name: Hot Dip Galvanized Trailer
- ATM: 1500kg
- Number Of Axes: 1
- Rounds: 2
- Technology: Hot-DIP Galvanizing
- Lights: LED ADR
- Service: OEM
- Inside Dimension: 2120mm*1250mm
- Certification: ISO/TS 16949, CCC, CE, ADR
- Highlight: **1 axes Hot Dip Galvanized Trailer, Hot Dip Galvanized Trailer OEM, OEM Trailer For Generator**

Product Description

Hot Dip Galvanized Generator Trailer

This heavy-duty 1-axle hot-dip galvanized generator trailer is specifically engineered for outdoor work and emergency power supply transportation. Constructed from high-strength steel and treated with comprehensive hot-dip galvanization, it forms a dense, uniform anti-corrosion coating capable of withstanding harsh environmental conditions including rain, snow, moisture, and acid/alkali exposure.

Durable Construction & Corrosion Resistance

The hot-dip galvanizing process significantly extends outdoor service life while reducing long-term maintenance costs. The robust frame structure features optimized mechanical design with exceptional load-bearing capacity and balanced weight distribution.

Advanced Features & Design

- Modular design adaptable to various generator specifications
- Stable mounting devices and shock-absorbing structures
- Effective buffering against transportation bumps and shocks
- Flexible steering towing mechanism with small turning radius
- High-strength tires suitable for both road and off-road conditions

Safety & Operational Features

Complete safety configuration includes anti-slip traction hooks, emergency braking systems, and reflective warning signs—all compliant with road transportation safety standards. Maintenance channels and lifting interfaces facilitate easy generator installation, removal, and routine maintenance.

Application Scenarios

Ideal for construction projects, field operations, emergency rescue missions, event security, and other scenarios requiring reliable mobile power solutions. This trailer ensures stable, efficient generator transportation for uninterrupted power supply in any location.
