## Product Description

### Customizable 20FT Tiny Home Trailers with 4500 kg ATM

Our 20FT house moving trailer represents the next generation of mobile living solutions, combining residential comfort with exceptional mobility. Built around a high-strength steel chassis core and featuring lightweight eco-friendly panels with modular living space design, this trailer delivers the complete functionality of traditional housing with the flexibility of mobile transport.

Ideal for travel, camping, temporary offices, emergency housing, and mobile workspaces, this versatile trailer provides a comprehensive living solution that adapts to your needs.

#### Key Features & Benefits

- High-strength steel chassis with mechanical optimization for superior durability
- High load-bearing wear-resistant tires and stable traction system
- Compatible with household vehicles and specialized towing equipment
- Anti-rust, anti-corrosion frame treatment with waterproof sealing technology
- Shock-resistant structure withstands road vibrations and outdoor elements
- LED ADR lighting system for enhanced safety and visibility
- 12-inch electric drum brakes for reliable stopping power

#### Performance & Applications

Engineered for both highway long-distance transportation and campsite mobility, this trailer delivers smooth turning and easy towing capabilities. The robust construction ensures stability and durability across various terrains and weather conditions, making it suitable for diverse applications from recreational use to professional mobile solutions.
