## Product Description

### Super Long Frame Tiny House Trailers 8 Ton Skeleton Trailer

The Super Long Frame Tiny House Trailer represents a revolutionary approach to mobile living, combining residential comfort with exceptional mobility. Built around a high-strength steel chassis core, this 8-ton skeleton trailer integrates lightweight eco-friendly panels with modular living space design. It delivers all the functionality of traditional housing while offering the flexibility of trailer transport, making it ideal for travel, camping, temporary offices, emergency housing, and various mobile applications.

#### Advanced Engineering & Performance

Engineered with mechanical optimization, the chassis features high-load-bearing wear-resistant tires and a stable traction system designed for both highway transportation and campsite mobility. The trailer offers smooth turning and easy towing compatibility with standard household vehicles and specialized traction equipment.

The frame undergoes comprehensive anti-rust and anti-corrosion treatment, combined with advanced waterproof sealing technology and shock-resistant structural design. This ensures reliable performance against outdoor weather conditions and road vibrations, guaranteeing long-term stability and durability of the living space.

#### Technical Specifications

Property	Value
Product Name	3-axis Container House Trailer
Overall Dimensions (Length × Width)	13200mm × 2270mm
Interior Dimensions (Length × Width)	11800mm × 2270mm
Load-bearing Capacity	8 Tons
Towing Bar	Heavy-duty Square Tube 50×100×50mm
Main Beam	60×120×50mm
Support Legs	8
Headlights	LED Headlights
Axle Configuration	4.5 Tons × 3 Axles
Number of Tires	12
Brake System	Electronic Brake
Locking Points	4
Connector Type	Ring Connector
