

Silver Plant Trailers 1 Ton - 3.5 Ton Mini Digger Trailer Humanized Design

Our Product Introduction

for more products please visit us on tippers-trailers.com

Basic Information

- Place of Origin: China
- Certification: 9001/TS 16949、CCC、CE、ADR、DOT
- Minimum Order Quantity: 1
- Delivery Time: 20-30work days
- Payment Terms: L/C,D/A,T/T,D/P
- Supply Ability: Annual output :2000

Product Specification

- Name: Plant Trailers
- Trailer Dimensions: 4600*2040*2400mm(Trailer Ladder 1800mm)
- Drawbar: 150*50*3 2150 Long
- Internal Dimensions: 2420*1540*140mm
- Surface Treatment: Hot-dip Galvanizing
- Fully Welded Body & Chassis: Yes
- Color: Silver
- Light: LED ADR Light
- ATM: 3000kg
- Rated Load Capacity: 2220kg
- Weight Of The Skin: 775kg
- Patterned Panel: 2.5 Pattern
- Spring: 8 Pieces
- Brakes: 2000mm

Product Description

Excavator trailer

The frame is made of high-strength manganese steel, welded together, and has undergone multiple stress tests. It can carry up to several tons of weight and is suitable for 1-3.5-ton excavators and various types of engineering machinery. It can firmly support the core production equipment.

The wider and thicker anti-slip bearing surface, combined with the adjustable limit device, firmly fixes the body without displacement, and eliminates the risk of shaking during transportation; Equipped with reinforced axles and wear-resistant vacuum tires, the shock absorption performance is upgraded. Whether it is rugged mountain roads, urban and suburban national highways, or muddy roads on construction sites, it can drive smoothly and reduce equipment vibration damage. Humanized design runs through the details: foldable tail plate is convenient for excavator to get on and off the vehicle, saving extra lifting cost; The hydraulic lifting system is easy to operate, and the load surface height can be adjusted with one button, which is suitable for the loading and unloading needs of different tonnage equipment; The entire vehicle is equipped with high-bright warning lights and reflective markings, making nighttime transportation safer and ensuring compliance on the road without any concerns.

Anti-corrosion coating process, no fear of wind and sun and harsh construction environment, extend service life; The flexible wheelbase design combines maneuverability and stability, making it easy to turn and reverse, and it can easily navigate through narrow construction sites or urban roads.

From mining to urban infrastructure, from cross-city transportation to nearby dispatch, This excavator trailer is not only a "reliable partner" for efficient transportation, but also a "hardcore support" for ensuring the progress of the project. It interprets the safety, stability and efficiency of heavy-duty transportation with its strength, and helps every excavator arrive at the operation site accurately and work hard.

Trailer dimensions:4600*2040*2400mm(Trailer ladder:1800mm)
Drawbar:150*50*3 ,2150 long

Our Product Introduction

Internal dimensions: 2420*1540*140mm
Surface treatment: Hot-dip galvanizing
Fully Welded Body & Chassis: yes
Color: Silver
Light: LED ADR light
ATM: 3000kg
Rated load capacity: 2250kg
Weight of the skin: 775kg
Guide wheel: 8 inch
Patterned panel: 2.3 Pattern
Spring: 8 pieces
Beam: 80*40*3
Tire: 185R15LT
Backup tire: 185R15LT
Swing wheel: 8 inches, operable
Brake: 12 inches, dual-axis electric brake
Plug: 7 Pin, Flat/ Small Round/ Big Round
Certification: 9001/TS 16949, CCC, CE, ADR, DOT
