### Product Description

#### Energy Storage Equipment Trailer

This product is a highly integrated, plug-and-play mobile energy storage system designed to meet outdoor work, emergency power supply, and temporary energy needs. It integrates a large-capacity lithium iron phosphate battery pack, an intelligent inverter, and a charging and discharging management system into a robust and road-worthy trailer chassis. The core advantage lies in its strong mobility and reliable power supply capability, which completely breaks the geographical limitations of fixed power sources, providing users with an efficient, convenient, and environmentally friendly integrated energy solution.
