

Solar LED Light Tower Trailer with Hot-Dip Galvanizing LED ADR Light and Fully Welded Structure

Basic Information

Product Specification

- Trailer Dimensions: 3910mm*1855mm*850mm
- Drawbar: 120*120,1580mm Long
- Internal Dimensions: 2320mm*1340mm
- Surface Treatment: Hot-dip Galvanizing
- Color: Silver
- Light: LED ADR Light
- ATM: 1800kg
- Guide Wheel: 8 Inches
- Fully Welded: Yes
- Patterned Panel: 2.5 Pattern
- Leaf Spring: 9 Leaf Springs
- Beam: 80*100*4
- Tire: 215/75R15LT
- Brake Connector: 2-ton Impact Brake
- Plug: 7-pin Flat Plug

Product Description

Solar LED Light Tower Trailer

A self-contained, mobile lighting solution powered by solar energy, designed to provide reliable illumination for industrial, construction, and emergency applications without requiring grid power connections.

Key Features:

- Solar-powered operation for complete energy independence
- High-efficiency LED lighting for maximum illumination
- Mobile trailer design for easy transportation and positioning
- Zero emissions and silent operation
- Ideal for remote sites and environmentally sensitive areas

This solar-powered lighting system combines renewable energy technology with industrial-grade LED lighting, offering a sustainable and cost-effective alternative to traditional diesel or generator-powered light towers. Perfect for construction sites, mining operations, emergency response, and temporary event lighting.
