Product Description

Heavy-Duty Double-Axle Container Trailer - High Load Capacity

Double-Axle Container Trailer

This heavy-duty container trailer represents a new generation of mobile living equipment that combines residential comfort with transportation convenience. Built around a high-strength steel chassis core, it integrates lightweight eco-friendly panels with modular living space design to deliver both the functional completeness of traditional housing and the flexible mobility of a trailer.

Comprehensive Living Solutions

Provides complete one-stop living solutions for diverse applications including:

- Travel and camping adventures
- Temporary office and workspace requirements
- Emergency resettlement and temporary housing

Our Product Introduction

- Mobile commercial and industrial applications

Advanced Chassis & Towing System

The mechanically optimized chassis features high load-bearing wear-resistant tires and a stable traction system engineered for both highway long-distance transportation and camp short-distance mobility. The design ensures smooth turning and easy towing, with flexible compatibility for both household vehicles and specialized traction equipment.

Durability & Protection Features

- Rust and corrosion-resistant frame treatment
- Advanced waterproof sealing technology
- Shock and vibration-resistant structural design
- Protection against outdoor weather elements and road impacts
- Ensured stability and long-term durability of living space
