Black Light-Duty Steel Flatbed Trailer for Portable Generator

This Black Light-Duty Steel Flatbed Trailer is an efficient transport solution specifically designed for portable generators, silent generator sets, and various outdoor equipment. Featuring a robust single-axle structure and high-quality black paint finish, this trailer offers a professional, stylish appearance while providing excellent rust resistance and weather durability. It is the ideal mobile companion for construction sites, farms, camping, or emergency operations.

Trailer dimensions: 3330mm*2400mm*200mm

Drawbar: 70*50,1500 long

Internal dimensions: 1760mm*900mm*200mm

Surface treatment: Painting

Color: Black

Light: LED DOT light

ATM: 1000kg

Weight of the skin: 230kg

Fully welded: Yes

Patterned panel: 2.5 pattern

Leaf spring: 4 leaf springs

Tire: 165/70R13C

Brake: Emergency brake (brake collision)

Plug: American 7-pin round-head plug

Key Features

Generator-Specific Design

- **Tailored Fit:** The trailer's dimensions and load capacity are carefully engineered to perfectly match the size of most portable generators on the market.
- **Stable Support:** The lightweight yet sturdy structure effectively protects the generator's base, preventing damage caused by bumps and vibrations during transit.

Durable Black Steel Construction

- **Full Steel Frame:** The entire unit is built from high-strength steel to ensure it does not deform under heavy loads.
- **Black Protective Paint:** The full-body black paint or powder coating provides superior anti-rust and anti-corrosion protection, withstanding harsh outdoor conditions like wind and rain.

Secure Non-Slip Deck

- **Anti-Slip Texture:** The deck surface features non-slip textured steel (diamond tread plate), ensuring the generator maintains a firm grip even on slopes or bumpy roads.
- **Lightweight Design:** The "light-duty" design means it has a light self-weight, making it easy to tow while still capable of handling generator weight.

Applications

Construction Sites

Easily transport generators to provide mobile power for electric tools across various site locations.

Outdoor Camping/RV Trips

Serve as a mobile power station to support lighting, audio systems, or coffee carts at campsites.

Agriculture/Gardening

Transport power supplies for farm irrigation systems or garden trimming equipment.

Emergency Backup

Rapidly deploy backup power during blackouts or natural disaster situations.
