### Product Description

This is a dual-axle hot-dip galvanized dump trailer, suitable for various material transportation and handling tasks. The trailer features hot-dip galvanization, offering excellent corrosion resistance and ideal for long-term outdoor use. Its dual-axle design enhances load capacity and driving stability, making it suitable for multiple applications such as gardens, farms, and construction sites.

#### Product Features

- Hot-Dip Galvanized Material: Entirely constructed from hot-dip galvanized steel, providing superior corrosion resistance, durability, and extended service life.
- Dual-Axle Design: Offers enhanced load-bearing capacity, ideal for transporting heavy materials.
- Dump Function: Equipped with a hydraulic lifting system for easy self-unloading, improving work efficiency.
- Removable Side Rails: Perimeter rails feature a mesh design and are removable, allowing convenient loading and unloading of materials of various sizes.
- Storage Box: A metal storage box is mounted at the front, perfect for storing tools and small items.

#### Applications

- Gardens: Transporting soil, fertilizer, plants, and other gardening supplies.
- Farms: Moving feed, agricultural produce, farm tools, and equipment.
- Construction Sites: Carrying building materials, waste, tools, and other construction supplies.
