

## Mobile Toilet Trailer with 3150mm\*1740mm\*640mm Dimensions, LED ADR Light, and 6-Ply Rating Off-Road Tires for Outdoor Events

### Basic Information

### Product Specification

- Trailer Dimensions: 3150mm\*1740mm\*640mm
- Drawbar: 60\*40,1150 Long
- Internal Dimensions: 2000\*1200\*740mm
- Surface Treatment: spray-apply Paint
- Color: Black
- Light: LED ADR Light
- ATM: 750kg
- Guide Wheel: 6 Inches
- Tire: 165/70R13C
- Leaf Spring: 4 Leaf Springs
- Plug: 7-pin Flat Type Plug
- Highlight: 3150mm\*1740mm\*640mm Mobile Toilet Trailer, LED ADR light Sanitation Transport Trailer, 6-ply rating off-road tires Portable Toilet Trailer

## Product Description

### Mobile Toilet Trailer – Durable & Portable Sanitation Transport Solution

This mobile toilet trailer is engineered for practicality and mobility, specifically designed for temporary sanitation needs in outdoor scenarios. Featuring a robust industrial-grade structure and humanized design details, it provides stable carrying and convenient transportation for mobile toilet cabins, making it the ideal supporting equipment for sanitation solutions across various temporary venues.

### Product Features & Specifications

#### Towing and Safety System

- **Stable Towing:** Front silver towing head with red safety pin enables quick connection to vehicle tow hooks, ensuring stable power transmission during travel
- **Dual Insurance:** Anti-detachment chain and red hook provide dual fixation to prevent accidental disengagement, while adjustable support wheel facilitates stable parking and safer loading/unloading

#### Carrier Platform Design

- **Anti-slip Load-bearing:** Diamond-pattern steel plates provide slip resistance and pressure resistance, stably carrying mobile toilet cabins (suitable for single or combined units)
- **Secure Fixation:** Pre-drilled fixing holes around the platform allow for addition of straps or buckles for enhanced cabin security
- **Collision Protection:** Black collision guards installed at front and rear ends prevent cabin sliding and collisions during transport, extending equipment lifespan

#### Humanized Auxiliary Functions

- **Convenient Boarding:** Anti-slip step platform with side metal handrail facilitates personnel access for cabin loading/unloading or equipment maintenance, enhancing operational safety
- **Storage Reservation:** Space underneath the platform stores cleaning tools and consumables, maximizing space utilization for on-site management needs

#### Mobility and Adaptability

- **Flexible Steering:** Front universal steering wheel combined with rear dual load-bearing wheels provides small turning radius for effortless movement within sites and adaptation to narrow working environments
- **Heavy-duty Tires:** Equipped with 6-ply rating off-road tires featuring wide tread and strong grip, adapting to various road conditions including mud, gravel, and asphalt for smooth transportation

### Application Scenarios

Outdoor Events: Music festivals, camping festivals, marathons, and other venues with large temporary crowds

Engineering Sites: Construction sites, road construction, mining operations, and other temporary work areas with dense personnel

Emergency Support: Rapid sanitation deployment during natural disasters, public health incidents, and other emergency situations
