Basic Information

Product Specification

- Trailer Dimensions: 5740mm*2340mm*1660mm
- Drawbar: 150*50 1500 Long
- Internal Dimensions: 4220mm*1800mm*300mm+600mm
- Surface Treatment: Hot-dip Galvanizing
- Fully Welded Body & Chassis: Yse
- Removable Front And Rear Drop-down Doors: Yes
- Color: Silver
- Light: LED ADR Light
- Axis: 50 Square Steel Bars
- ATM: 3500kg
- Rated Load Capacity: 1750kg
- Weight Of The Skin: 1750kg
- Guide Wheel: 10 Inch
- Retarded Brakes: 2 ED Brakes

Product Description

14x6 Hydraulic Tipper Galvanised Box Trailer 3500kg ATM (Electric Brake)

This heavy-duty 14x6 Hydraulic Tipper Galvanised Box Trailer is engineered for high-intensity material transport applications, combining exceptional durability with operational efficiency. The hydraulic tipping system and robust galvanised steel construction enable effortless loading and dumping of materials while significantly reducing manual labor and operational time.

Key Specifications:

- Size: 14x6
- Capacity: 3500kg Aggregate Trailer Mass (ATM)
- Braking System: Electric Brakes
- Construction: Galvanised Steel Box
- Operation: Hydraulic Tipping System

Application Scenarios

Construction Sites

Ideal for transporting concrete blocks, bricks, and demolition waste. The hydraulic tipping mechanism ensures complete material discharge while the galvanised construction provides superior wear and corrosion resistance for extended outdoor service life.

Our Product Introduction

Agriculture & Gardening

Perfect for moving feed, fertilizer, harvested crops, and garden materials. High side rails prevent spillage of bulk materials, making it suitable for farm operations and landscape maintenance tasks.

Municipal Engineering

Excellent for road repair operations, transporting asphalt, sand, and pipe fittings. The electric brake system enhances safety in urban environments with frequent stopping requirements.

Private Projects

Well-suited for home renovation projects, yard work, pool construction, and building material transport. The compact 14x6 dimensions provide optimal balance between load capacity and maneuverability, complemented by a convenient front tool box for accessory storage.

Primary Advantages: Hydraulic tipping system reduces manual labor • Galvanised steel construction for long-term durability • Electric brakes ensure safe stopping performance • Versatile design suitable for multiple industries • Tool box included for convenient accessory storage
