Product Description

Enclosed Box Trailer

This enclosed box trailer is engineered for the safe and secure transportation of various types of cargo, making it suitable for personal moving, commercial delivery, and equipment transport. The core structure features a robust metal frame covered with high-strength panels, ensuring optimal protection from weather elements and theft during transit.

The trailer features a compact design with a trailer ball and coupler at the front for easy vehicle attachment. It is equipped with single-axle dual wheels to enhance driving stability and safety. Reflective strips and warning lights on the sides and rear improve visibility during nighttime operation. The overall construction is lightweight yet exceptionally durable, making it ideal for frequent commercial use.
