Product Description

Single Axis Boat & Jetski Trailer ATM2000kg

This boat trailer is specifically engineered for land transport of small to medium-sized boats, accommodating vessels up to 6 meters in length including yachts, jet skis, and fishing boats. Constructed from durable aluminum alloy, it features a labor-saving winch, integrated jack, and adjustable lifting mechanism for optimal boat handling.

Front Section: Compact design with tow ball and connector for easy vehicle attachment

Middle Section: Adjustable rollers and reinforced brackets ensure boat stability during transport

Rear Section: Dual wheel configuration enhances driving stability and load distribution

The roller system and reinforced brackets provide secure boat support, while the lightweight yet robust construction ensures durability for frequent use applications.

Primary Applications

Daily Transport: Efficient movement of boats from storage facilities to docks, lakes, or launch sites

Event Support: Rapid transport of competition boats during water sports events and tournaments

Our Product Introduction

Maintenance & Storage: Safe extraction of boats from water for cleaning, repairs, or seasonal storage
