Basic Information

Product Specification

- Name: Double Axis Boat & Jetski Trailer
ATM1500kg
- Trailer Dimensions: 6800*2200mm
- Draw Bar: 180*80 1070 Long
- Internal Dimensions: 5500*1700mm
- Surface Treatment: Hot-dip Galvanizing
- Body And Chassis: Removable And Detachable
- Color: Silver
- Light: LED Light
- ATM: 1500kg
- Spring: 5 Pieces
- Tire: 165/70R13C
- Swing Wheel: 8 Inches, Operable
- Brake: No Brakes
- Plug: European 7-pin Plug

Product Description

Product Overview

This heavy-duty double-axle trailer is engineered for safe, reliable transport of boats, jet skis, and other watercraft. Built with premium materials and certified for global markets, it delivers exceptional durability, corrosion resistance, and ease of use for both recreational and professional use.

Our Product Introduction

Parameter	Details
Overall Trailer Dimensions	6800mm * 2200mm
Internal Loading Dimensions	5500mm * 1700mm
Draw Bar Specs	180*80mm, 1070mm length
Maximum Authorized Mass (ATM)	1500kg
Surface Treatment	Hot-dip galvanizing (full-body anti-corrosion)
Chassis Design	Removable & detachable body and chassis
Color	Silver (galvanized finish)
Lighting System	Full LED lights (energy-efficient, long-lasting, high visibility)
Suspension	5-piece spring suspension for smooth towing
Tire Size	165/70R13C
Swing Wheel (Jockey Wheel)	8-inch, fully operable for easy maneuvering
Braking System	No brakes (ideal for light to medium watercraft)
Plug Type	European 7-pin plug (compatible with EU-standard towing vehicles)
Certifications	ISO 9001/TS 16949, CCC, CE, ADR, DOT (global market compliance)

Core Features & Advantages

1. Premium Corrosion Protection

The entire trailer undergoes hot-dip galvanizing, creating a thick, durable zinc coating that provides long-term resistance to rust, saltwater, and harsh weather. Perfect for marine environments, ensuring years of reliable use without corrosion damage.

2. Robust Double-Axle Design

The dual-axle configuration delivers superior stability and weight distribution, making it ideal for transporting larger boats and jet skis. The 5-piece spring suspension absorbs road shocks, protecting your watercraft during transit.

3. User-Friendly Design

- Detachable Chassis:** Modular design for easy storage, maintenance, and customization.
- 8-Inch Swing Wheel:** Effortlessly maneuver the trailer into tight spaces or align it with your watercraft for loading/unloading.
- LED Lighting System:** Bright, energy-efficient LED lights ensure maximum visibility on the road, meeting global safety standards.
- European 7-Pin Plug:** Plug-and-play compatibility with most EU towing vehicles, no extra adapters required.

4. Global Safety Certification

Fully certified to ISO 9001/TS 16949, CE, ADR, DOT, and CCC standards, this trailer meets strict international safety and quality requirements, ensuring legal and safe operation in markets worldwide.

5. Versatile Application

Designed for both boats and jet skis, this trailer is perfect for recreational boaters, water sports enthusiasts, and marine businesses. Its generous internal loading dimensions (5500*1700mm) accommodate a wide range of watercraft sizes.

Why Choose This Trailer?

Durability: Hot-dip galvanized construction for lifelong corrosion resistance in marine conditions.

Stability: Double-axle design and spring suspension for smooth, safe towing.

Convenience: Detachable chassis, swing wheel, and LED lights for hassle-free operation.

Compliance: Fully certified for global markets, ensuring legal use in the EU, US, and beyond.

Versatility: Compatible with boats, jet skis, and other small watercraft.
