Product Description

Our Product Introduction

This 10x5 Hydraulic Tipper Galvanised Trailer (Electric Brake) is a heavy-duty workhorse designed for construction, landscaping, farming, and waste management. Built to withstand tough conditions, it features a hot-dip galvanized finish, fully welded body and chassis, and a robust hydraulic tipping system, making it the ultimate solution for transporting and unloading bulk materials efficiently.

Item	Specification
Overall Dimensions	4640mm × 2060mm × 800mm
Drawbar	150×50mm, 1500mm long
Internal Dimensions	3040mm × 1530mm × 300mm + 600mm (removable sides)
ATM (Aggregate Trailer Mass)	3000kg
Rated Load Capacity	1935kg
Trailer Weight	1065kg
Tires	185R15LT
Beam	80×40×2.5mm
Spring	7 pieces
Patterned Panel	2.5 Pattern
Ramp	2050mm

Durable Galvanized Construction

Hot-dip galvanized surface treatment provides exceptional corrosion resistance, ensuring long-lasting performance in harsh outdoor environments. The fully welded body and chassis offer superior structural strength, making it ideal for heavy loads and rough terrain.

Hydraulic Tipping System

Effortlessly unload bulk materials like gravel, soil, debris, or crops with the hydraulic tipper function. The inclined fuselage design ensures smooth and fast unloading, saving you time and labor on every job.

Safety & Compliance Features

- Equipped with **10-inch dual electric brakes** for reliable stopping power, even under full load.
- **LED ADR lights** meet road safety standards for visibility and compliance.
- Certified with ISO9001/TS 16949, CCC, CE, ADR, and DOT, ensuring quality and regulatory adherence.

User-Friendly Design

- Removable front and rear drop-down doors for easy loading, unloading, and versatile use.
- 8-inch guide wheel and operable 8-inch swing wheel for smooth maneuvering and parking.
- 7-pin flat plug for quick and secure electrical connection to your towing vehicle.
- Silver galvanized finish offers a sleek, professional look while resisting rust and wear.
