molded finish provides robust corrosion resistance and a professional appearance.

Reliable Suspension: 9-piece spring suspension system ensures smooth handling and load support even on rough terrain.

Safety & Compliance Features

LED ADR Lights: Bright, energy-efficient lights meet Australian Design Rules (ADR) standards for visibility and road safety.

Certified for Global Standards: Manufactured to meet ISO 9001/TS 16949, CCC, CE, ADR, and DOT requirements, making it suitable for use across international markets.

Secure Towing: The dual-axis design provides enhanced stability for heavy loads, reducing sway and improving control during transport.

Versatile & Practical Design

Whether you're transporting machinery, building materials, or large equipment, this flatbed trailer offers the space and strength you need. The open deck design accommodates oversized cargo, while the adjustable support legs make loading and unloading simple and safe, even on uneven ground.

Built to withstand heavy use and harsh conditions, this trailer is your dependable partner for all heavy-duty hauling tasks. Invest in a trailer that delivers performance, durability, and peace of mind on every job.
